Mrs. Tally Burnett Dead.

Mrs. Tally Burnett died in a hospital in San Antonio last Sunday after a short illness. With the death of this lady a life of unusual vicissitudes was brought to a close.

Mrs. Burnett (nee Miss Laura McLeone) was among the early settlers if not a native of this county, and spent her girlhood days on the Hondo at what is known as the Goza place, now owned by Dr. Meyer. She was raised in affluence, her parents being rated among the wealthiest people of this, then a wild frontier country. She married Tally Burnett, who is remembered by the old settlers as one of the big stockmen of this section. Worldly affairs prospered with them for awhile and the Burnett home, just above where the bridge now spans the Hondo creek on the Devine road, was one of the best appointed in this whole section, and the subject of this sketch spent many happy days there, surrounded by plenty.

But Mr. Burnett, like many other pioneer stockmen who enjoyed unlimited free range, failed to realize the change that was swiftly coming and was unprepared when free range was no longer possible. Reverses followed reverses in quick succession and soon the once prosperous stockman was reduced to penury.

But if decedent ever uttered one word of complaint at the misfortunes that overwhelmed and swept their worldly possessions away, it was to her most intimate friends. To the world at large she presented a stoicist that was really remarkable in one who had, in early life had never known an ungratified wish.

Mr. Burnett preceded her to the grave by more than twenty years. She is survived by one son, Ed. Burnett, a citizen of Hondo, two sisters, Mrs. A. K. Goza of Hondo, and a sister living in Devine. She has several children living elsewhere but we are not advised as to their whereabouts.

Mrs. Burnett was a member of the Methodist church, and throughout her checkered life never lost faith in the goodness and wisdom of her God. Now that the battle of life is over may she enter into the sheltering home of her heavenly father where for ever more may she be protected from the rude vicissitudes that were her portion in this life.

T. B. C. Club.

After having spent the hot summer months visiting in the mountains of Bandera, fishing and swimming in the lake, honeymooning in Kansas, and one member moving her place of residence entirely to a border town, the T. B. C. Club gathered at the home of Miss Mary Kempf Thursday afternoon all eager to get to work(?)

There was so much to be talked about, so many questions to be answered that every one talked at once and nobody heard.

Nevertheless the needles were busy all the while for 'Old Saint Nick' has been here—and too, there are the many bazaars one must help out.

We fear we are going to have to rule our little friend "Dan" out of the club—for from the looks of boxes of candy and photos on dressing tables, he has been terribly busy in the last seven months.

One thing most every member of the club did accomplish during the summer was to make pretty embroidery bags. Quite the latest in that line was shown by one of the members, it being a pretty cone shape affair of thin-paper-colored material, just large enough to hold crochet needle and thread.

Another pretty one was a square piece of tan material which closed by bringing the four corners together on top, fastening with a fancy pin or cord.

The hostess assisted by her mother served delicious sandwiches and iced tea.

Those present were: Mesdames Crain and Carter, Misses Lola Buchanan, Bessie Mae Chancey, Lizzie Schuchle, Johanna Rothe, Dora Filleman, Evelyn de Montel and the hostess.

Notice.

ARTICLE NO. 694, PENAL CODE OF TEXAS.

"If any person shall suffer any substance, injurious to the health of those who reside in the vicinity, to remain on premises in his possession, he shall be punished by fine not less than \$10.00 nor more than \$100.00, and each day he permits such substance to remain on the said premises shall constitute a separate offense."

The attention of the public is directed to the above law. A good many people in this community have surface closets on their premises. A surface closet, to be sanitary and to be within the law, must be screened and cleaned out every day. Inasmuch as this community has no scavenger this is impracticable, and the public is hereby notified that pits must be provided at least six feet in depth and kept daily disinfected by use of some suitable disinfectant, such as lime. Owing to the prevalence of Typhoid Fever, Malaria, Dengue, Diphtheria, Typhus and Scarlet Fever, I feel it incumbent upon me as County Health Officer of Medina County to see that the said law is strictly enforced. I request the citizenship of Medina county who have the welfare of this community at heart, to assist in placing the community in a sanitary condition.

W. H. SMITH,
County Health Officer.

Commissioners' Court.

The commissioners' court, in session several days last week, transacted the following business:

The petition of Albert Rietzer and others for re-opening of road near dam, was continued.

Petition of Christies and others for change in Castroville-Bandera road near dam, continued.

The court viewed the Tarpley-Hend road along the proposed change through Henry Rothe's pasture. Action on said petition was deferred.

The court inspected the various bridges now under construction in the county.

The court accepted a thousand dollars donation from F. A. Brown, Jack Fasselmann and others toward the construction of a bridge over the Hondo at the Weber crossing. The contract for the building of the bridge was let to Austin Bros. of Dallas, Texas, for \$4,500.

Petitions for two low water bridges across the Medina river along the Castroville-Lacoate road were also granted, the citizens living in the sections to be served by the bridges making donations toward their construction.

Petition of residents of Devine for the placing of Catrino Vasquez on paupers list was granted, and allowance of \$12.00 a quarter made.

Dr. W. H. Smith was authorized to have the weeds cut and otherwise have the towns of the county placed in a sanitary condition.

BAZAAR AND DINNER

The ladies of the Hondo Lutheran Church will hold a Bazaar at the Leinweber building Thursday, Sept. 28th. They will serve sandwiches, cake, coffee and refreshments and a dinner will be served. The public is cordially invited to attend and help a good cause.

Jourdanton Editor Dies.

The funeral of James M. Whitlow, editor of the Jourdan News, who died at his home in Jourdan Tuesday morning, was held Tuesday afternoon at 3:30 o'clock, during which time all stores and schools in the little town were closed as a tribute to the deceased. Burial was in the Jourdan cemetery.

He is survived by three sisters, Mrs. Roy O. Perkins of San Antonio, Mrs. George Holcomb of Marion and Mrs. R. P. Thomas of Hondo.

James M. Whitlow was born in Veron, Miss., August 16, 1869, being at the time of his death 47 years of age. He came to Texas in 1871 and almost immediately started in the printing and publishing business, which line of work he followed continuously. At the age of sixteen years he established the Vindicator at Utiia, Texas. He also established the first daily paper at Paris, Texas, the Daily Advocate.—San Antonio Express.

Philathea Class Meets.

Mrs. Monkhouse entertained the Philathea class Tuesday afternoon in a very hospitable manner.

The class met at four o'clock with fifteen members and three visitors present.

The meeting was opened with prayer by Mrs. J. S. Fly followed by the class hymn.

After the business of the meeting was over the lesson was very ably conducted by our new president, Mrs. J. R. Chancey. The lesson being a part of the book of Judges proved very interesting.

Refreshments consisting of ice cream and cakes were served by the hostess, assisted by Mesdames Smith and Peters.

The class will meet the next time with Miss Della Peters, at which time we will take up our new study "The Bible by Periods."

PRESS REPORTER.

Notice, Democrats.

Is it "Just a Cold"?

Hondo People Should Ask Themselves This Question.
Don't say: "It's just a cold."
It may turn into backache, rheumatic aches, aching joints.
Or other serious sickness that comes from weak kidneys.
Colds are due to congestion.
Congestion makes the kidneys over-work to filter the blood.
Colds often leave the kidneys weak.
First break the cold;
Then use Doan's Kidney Pills to avert the kidney dangers.
Let this Hondo resident tell you about them.

Mrs. Heyo Schweers, Hondo, says: "I suffered from an attack of kidney trouble. The whole complaint seemed to be with the kidney secretions. They annoyed me by being irregular in passage and I believe the trouble was brought on by a cold settling in the kidneys. I got Doan's Kidney Pills at Windrow's Drug Store and after short use, the trouble was removed. It has never returned."
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Schweers had. Foster-Milburn Co., Props., Buffalo, N. Y.

Oatmeal Scones.

Take a cupful of oatmeal, one-third of a cupful of wheat flour, one teaspoonful of baking powder and one-half teaspoonful of salt. Mix together thoroughly. Cut into this one tablespoonful of butter and hot milk to make a stiff dough. Roll out to a half inch in thickness. Cut in rounds with a biscuit cutter and bake on a griddle until brown, then turn on the other side. Tear apart and butter generously. Serve at once.

Broiled Lamb's Kidney.

Split as many kidneys as are needed and remove the fat and sinew, then soak in acidulated water. Drain and wipe dry. Immerse in olive oil and broil. Serve on toast, garnished with parsley and lemon.

Curried Chicken With Coconut.

Parboil a chicken cut in pieces, then roll in flour in which a teaspoonful of curry has been mixed, fry in butter and drippings until brown. Have a fresh grated coconut with two cupfuls of water and a dash of lemon and the coconut milk added to the chicken, thicken and serve with rice potatoes.

Scotch Fancies.

Take one egg, well beaten, add a half cupful of sugar, one-third of a cupful of coconut, a dash of salt and a half teaspoonful of vanilla, a two-thirds of a cupful of rolled oats, mix and drop on a baking sheet. Let stand a few minutes when taken from the oven to make them firm.

Rice.

Cook unpolished rice until tender in plenty of boiling water, season with salt and serve with cream and sugar. This rice is much more nourishing than the polished rice commonly on the market.

Mixed Fruit Ice Cream.

Take the juice of three oranges, three lemons, three bananas, and a cupful of cooked apricots, three cupfuls of sugar and three cupfuls of rich milk, put the apricots and bananas through a sieve and mix the other ingredients until the sugar is dissolved. Freeze as usual.

Porch Cushions.

Porch cushions are the gayest of the gay. And they are striped, in conformity with the general trend toward striped effects in decorations and home accessories of every sort. All the colors of the rainbow are seen in these cushions for the swinging seat, the settee, the rocker, and general utility, but the combination of tints have been made so skillfully that the result, while undeniably vivid, is by no means unpleasing or crude. In the khaki-hued couch hammock, or in one of awning stripes in black or white, a group of these bright toned cushions presents a desirable contrast.

TO AVOID EGG LOSSES

Cause of Great Trouble to Pro-
ducer and Consumer.

Investigators Find That Approximate-
ly Four Per Cent Are Cracked—
Much Depends on Quality of
Packing Employed.

Cracked eggs are the cause of great trouble and loss to the egg industry from producer to consumer. Every time an egg is handled on the farm or elsewhere it is likely to get shell damage. Occasionally the hen cracks an egg, but that is seldom. The farmer cracks some on the farm, and by the time he has hauled them to the country store or to the shipper investigators find that approximately four per cent are cracked and one-tenth of one per cent mashed or leaking. If the country storekeeper rehandles the eggs and hauls them to the egg shipper, the number of cracked eggs is increased to about six per cent. In addition, three-tenths of one per cent are mashed eggs or leakers that must be thrown out. If, however, the country storekeeper sends the cases of eggs to a nearby shipper by local freight, the total of cracked eggs has risen at the end of the journey to approximately seven per cent, and one per cent more are mashed or leaking. The damage when eggs reach the big cities after a haul of 1,000 miles or more will depend upon the quality of the egg packing, the way the lot is placed in the car, and the way the railroad hauls the car, especially when switching. When the eggs are shipped in car lots and both shippers and carriers do their work well, transit dam-

Excelsior Buffing Properly Placed in Case Makes an Even Soft Cushion Which Prevents Eggs From Shifting.

Excelsior Buffing Improperly Used, Increases Rather Than Prevents Egg Breakage in Case and Distributes Pressure Unevenly on Top Layer.

age is kept down to as little as one per cent, including cracked, mashed and leaking eggs.

Approximately one egg in two cases gets mashed or becomes a leaker on the railroad trip. But when eggs are shipped in less than car lots, the transit damage is generally multiplied many times. The total damage from all handlings of eggs between the hen and the consumer, investigations show, is certainly not less than ten per cent, and may be even greater. The ten eggs out of 100 that are damaged consist of about eight eggs which are lowered in value by cracking and about two eggs which are a total loss.

The following rules for shippers, if practiced, will prevent cracks:

(1) Use only new, strong, standard egg cases, having five, or better, six, three-penny, cement-coated nails at each joint. See that the partition is exactly in the center.

(2) Use "medium," "three-pound," or "No. 1" fillers and flats. The "three-pound" filler gives general satisfaction. Be sure that they are new, and that the tips are not bent or softened. At least five times as many eggs break in fillers that have been used as when they are new and firm.

(3) Never fail to put excelsior, cork shavings, or the little "quarter filler" in the bottom of the case so that the eggs will have an even cushion under them; and be sure to spread excelsior evenly and plentifully over the top flat, or put in a corrugated board in place of the excelsior. The top layer has generally twice as many eggs broken in transit as has any other layer in the case.

(4) Be sure the lid is put on the case so that it fits and is on straight. In nailing the lid down use the three-penny, cement-coated nails all take hold and go squarely into the wood. Use six of them at each end.

GROWING CHICKS AND FOWLS

Those Not Permitted Free Range Must Have Variety of Feed or Results Will Be Poor.

While growing chicks and fowls which have free range on a farm will do well in summer on most any kind of feeding, those that have not free range and cannot balance their ration themselves, must have a variety of food or results will not be profitable.

DRINKS FOR SUMMER DAYS

Delicious Cooling Beverages That Are at the Command of Practically Every Housewife.

Grape juice is an excellent foundation for a variety of delicious drinks, and has the advantage of being healthful. It is much more economical to put up your own grape juice each year, but if you have not done this a case of small bottles does not come high.

Grape juice and limes make one of the most delicious cooling of summer drinks. Pour into a tall glass three or four fingers of grape juice, add the juice of two limes and a slice of the peel; fill the glass with water to taste—a sparkling water is preferable—and serve ice cold.

Grape juice and lemonade make a good combination.

A ginger ale and cold tea punch is a novel drink that is very good. Sweeten half a pitcher of cold tea, add the juice of a lemon and several sprigs of mint. Keep on ice and at the last minute pour in a bottle of ginger ale. This should not stand before serving, as the ginger ale will lose its sparkle. A rather strong and not too sweet ginger ale should be used for this punch.

iced cafe au lait is the best drink to serve if the luncheon is very light, and a little extra nourishment is wanted. To make it properly—it should be carefully blended, mixing the coffee and milk well together and sweetening to taste. It is better, if possible, to use a sugar syrup to sweeten it. Stand on the ice until ready to serve and then add a little thick cream to each glass and enough cracked ice to fill the glass. For the sweeter varieties of soft drinks, milk shakes and fruit syrups may be used.

To make a milk shake fill a glass two-thirds full of milk; sweeten it to taste with any fruit syrup or with a little of some strained preserve, if you have not the syrup. Fill the glass with cracked ice and shake together until well mixed.

Fruit syrups can be made from strawberries, raspberries, cherries or currants. Cook a quart of fruit with a pint of water until well softened, then strain and press out the juice through a heavy cloth. When cold, sweeten and dilute to taste, and serve in tall glasses filled with cracked ice.

TEMPTING DISHES

Chop boiled spinach fine and mix thoroughly with a raw egg. Mold and put in the oven a minute to reheat.

A spoonful of boiled and grated fresh corn or one of the canned corn, if heated and put in the bottom of the soup plate just before the tomato soup is poured in, makes a dish decidedly new and appetizing.

The top of the round is often cut up in inch cubes, browned slightly and then stewed in enough water to cover it. This is put in the middle of the platter and then surrounded with boiled noodles to make a tasty dish.

For anyone who likes cooked bananas a very good idea is to cut the fruit very, very fine and then add to the hot cake batter and cook the same as the ordinary hot cakes. Grated corn is also very good if used in the same manner.

Brown Stew.

Two pounds and a half of neck and shoulder of fresh beef cut in small pieces. If too fat, remove some of it, wash meat and put on stove in about two quarts or more of hot water in a good-sized kettle. Add two onions sliced thin, two good-sized carrots cut in dice, three medium potatoes cut up. Stew should cook about three and a half hours. Don't boil too hard. Should be quite thick and very dark rich brown in color and not fat. Put in onions, carrots, salt and pepper when you put on the meat; put in potatoes about one-half hour before stew is done.

Calves' Liver and Bacon.

Cook rare eight slices of bacon in the blaze; lift the bacon out, leaving the fat in the pan; put in eight slices of liver cut thin and lightly dusted with flour, and cook for five minutes, turning continually; now put the bacon back to finish, adding a tablespoonful of butter and salt and pepper to taste. Then serve.

Tomatoes and Cheese.

Prepare slices of hot toast. Take one cupful of tomato juice. Grate one pound cheese, add to the tomato with salt, a little cayenne pepper and one cupful bread crumbs. Melt tablespoonful butter in omelet pan, add above mixture and stir until cooked and creamy. Pour over toast and serve.

To Clean Window Shades.

Wet a sponge with lukewarm water, squeeze out the surplus, and go over the shade carefully. It may be necessary to do this twice, then wipe gently with a dry cloth, taking care not to rub too much, as the paint may come off.

To Keep Tablecloths Smooth.

Instead of folding tablecloths after they are washed, roll them, folded once or twice, lengthwise on mailing tubes of cardboard. This makes a smoother cloth, with fewer creases, which is, of course, to be desired.

On Toast.

Serving green vegetables on toast is an economical as well as a palatable method. It makes the vegetable "go farther," adds considerably to the total food value of the dish, and is one more good way of using stale bread.

MUST WATCH FOOD

HOUSEKEEPER'S RESPONSIBILITY
IN THE HOT WEATHER.

Almost Every Variety Will Quickly Spoil Unless Especial Care is Taken—Points of Importance Worth Remembering.

An additional responsibility is brought to the housekeeper in the hot season, writes Mrs. Christine Frederick in the Chicago News. She must pay greater attention to her food supplies and the way they are kept. It is in periods of high temperature that all foods, and particularly meat, milk and fruits, are likely to spoil and decay.

The laboratory is not so far distant from the kitchen and, indeed, the best housekeepers are those who make a laboratory out of their kitchen and follow in it the principles that science has proved. It is undisputed that there are minute organisms or bacteria in the air which feed on our foods. There are also in the foods themselves certain substances which, while not alive, are the products of living things and which cause fruits to ripen, seeds to grow, etc.

Both these causes result in deterioration or decay of the food unless they are prevented. Bacteria of various kinds and allied plant organisms like mold attack and break down food tissue, causing the food to become unfit for use. Now, there are about three ways in which the housewife can prevent food from deteriorating:

1. By keeping the food in a low temperature, as with the icebox, etc.
2. By sterilizing and killing the bacteria by means of a high temperature.
3. By the use of certain preservatives, as sugar, salt, vinegar, spices, etc.

The first means entails constant supervision of the refrigerator. Newspapers should not be used on the shelves or on the ice, as this prevents proper circulation of air and may cause the box to become bad smelling and damp, the very conditions under which bacteria flourish most. It should be kept clean and foods properly placed in it. Overripe fruit, hot or even warm foods, strong smelling foods, like onions and bananas, should never be placed in the box. Small quantities of leftovers should be covered with glass or agate saucers and only glass, china or agate should be used in which to lay away food.

The second point can be followed by cooking a quantity of food which seems to be on the point of spoiling. A box of berries can be saved by stewing with sugar. Milk which undoubtedly would not keep until the next morning will be satisfactory if scalded. Many other foods which might become subject to mold or spoilage can be saved by being thus cooked or sterilized and perhaps canned temporarily.

Salt, sugar and vinegar are helpful, natural preservatives. Their addition to many fruits and vegetables will make them "keep" several days longer than if they were not used. For instance, beets, string beans, cucumber, etc., which in warm weather cannot be allowed to stand over night unless in a very low temperature, will be perfectly preserved if covered with a weak solution of vinegar or brine. Soups and all twice cooked foods like stews, etc., are particularly likely to ferment and should be watched carefully. All containers of food must be allowed sufficient air and not closed when the foods are still warm.

New Tea.

A beverage that is indorsed by science as being perfectly harmless is known as mate. Unlike ordinary tea, mate is improved by boiling, and the same handful of herva, or prepared mate leaves, can be used for two infusions and the second may be better than the first. It is a tonic, a stimulant and a diuretic. It is especially desirable for those who wish to counteract the consequences of physical or mental work.

Fruit Conserve.

Two quarts of cherries pitted, two quarts of gooseberries, one quart of red raspberries, one pound of seeded raisins, three oranges cut in pieces, leaving rind on; one lemon, juice only, three-quarters of a pound of fruit. Boil half an hour or more and put in tumblers. Prepare the fruit and sugar over night. By morning the sugar is dissolved.

Nutmeg Cookies.

Mix two cupfuls of sugar, three-fourths of a cupful of butter, two-thirds of a cupful of sour milk, nutmeg enough to flavor, two eggs, a teaspoonful of soda and enough flour to roll. Roll out thin and bake in a quick oven.

Muszel or Clam Salad.

Wash, boil five minutes, remove heads and black membranes, dip in melted butter, salt, pepper and lemon juice mixed, set in ice box one hour; serve with lettuce. French dressing and minced parsley, cross or cucumber.

Dyeing Rags for Rugs.

When dyeing rags for rug-made rugs, tie the bunches of rags tightly round before dipping in the dye. This will give intervals of color without color, and the effect when worn will be greatly enhanced.

To Keep Marigolds From Fading.

To keep marigolds from fading, and to let a snapshot of a fading flower last before putting the marigolds on the table.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

Replace Your Old Gates With The Low Priced Can't-Sag

Now is the time to improve the looks
and value of your farm by putting up Can't-
Sag Gates. Notice how the boards are double-bolted in
between 8 angle steel uprights. They can't sag or drag. Stock can see
plainly—won't break them down or twist them out of shape.
The first cost is no more than that of the clumsy short-lived all-wood
gates, yet they last five times as long.

Build Your Own Can't-Sag Gates

If you prefer to save money. We sell the complete gates ready
to hang or just the Gate Steels, which include 8 angle steel uprights, dou-
ble truss brace, all bolts, hinges, lag screws, lightning sockets,
wrench and direction sheet. Come in and examine the
Can't-Sag Gate next time you come to town.

Mrs. Eugene Mofield of Del Rio is
here on a visit to her parents, Dr. and
Mrs. B. R. Bradley. She was accom-
panied home by her sister, Miss Abbie,
who had been visiting her in Del Rio.
Mrs. Mofield's friends here will be
pleased to know that she has about
recovered from her recent indisposition.

What is regarded by the people here
as almost a miraculous escape from
death occurred on the D'Hanis road one
day the early part of the week when a
car driven by W. J. Garmand, from
the eastern part of the county, jumped
off a bridge and landed in a ditch about
four feet below while going at a high
rate of speed. The impact of the car
against three cedar uprights of bridge
between four and five inches in diam-
eter snapped them off as smooth as if
done with an axe. Mr. Garmand was
thrown from the car and considerably
bruised up and had one rib fractured.
Medical assistance was summoned from
Hondo, and an examination showed
that he had escaped any very serious
injury. Those who visited the scene
of the mishap attribute Mr. Garmand's
escape from more serious consequences
to the fact that the car remained up-
right. They say that had the car turn-
ed over he undoubtedly would have
been crushed to death.

Rose of My Heart.

Rose of my Heart, if I could win
To the garden of sweets your heart
encloses—
Creep through the gate and enter in
Where Love lies hidden amid the
roses—
All so softly I'd steal to where
The great, red roses stooped to fold
him,
And, kneeling, seize on the godling
there,
And close to my heart forever hold
him.

The holy melodies of love arise.

—Longfellow.

When shall all men's good
Be each man's rule, and universal
Peace
Lie like a shaft of light across the
land,
And like a lane of beams across the
sea?

—Tennyson.

There never was a good war or a
bad peace. — Benjamin Franklin.
Peace is the fairest form of happi-
ness. — Channing.

Peace is the happy natural state of
man; war, his corruption, his disgrace.
Thomson.

Blessedness is promised to the peace-
maker, not to the conqueror. — Quarles.

Peace with a cudgel in hand is war.
— Portuguese Proverb.

Peace is the masterpiece of reason.
— Count Schulenburg-Kenbert.

Peace rules the day where reason
rules the mind. — Collins.

Peace gives food to the husbandman,
even in the midst of rooks; war brings
misery to him even in the most fertile
plains. — Menander.

A time will come when the science
of destruction shall bend before the
arts of peace; when the genius which
multiplies our powers, which creates
new products, which diffuses comfort
and happiness among the great mass
of the people, shall occupy in the
general estimation of mankind that
rank which reason and common sense
now assign to it. — Arago.

Oh, first of human blessings! and su-
preme,

Fair peace! how lovely, how delightful
thou!

By whose wide tie, the kindred sons of
men

Live brothers like, in amity combin'd
And unsuspecting faith.

— Thomson.

Oh, Peace! thou source and soul of
social life;

Beneath whose calm inspiring influ-
ence,

Science his views enlarges, Art refines,
And swelling Commerce opens all her
ports;

Blessed be the man divine, who gives
us thee!

— Thomson.

I hope it (peace) will come soon and
come to stay; and so come as to be
worth keeping in all future time. —
Abraham Lincoln.

War.

War is a science of destruction. —
John S. C. Abbott.

War is a crime which involves all
other crimes. — Brougham.

The law is silent during war. —
Cicero.

If Christian nations were nations of
Christians there would be no wars. —
Soame Jenyns.

Battles are never the end of war;
for the dead must be buried and the
cost of the conflict must be paid. —
James A. Garfield.

The measure of civilization in a peo-
ple is to be found in its just appre-
ciation of the wrongfulness of war. —
Helps.

War suspends the rules of moral
obligations, and what is long sus-
pended is in danger of being totally
abrogated. — Burke.

War is one of the greatest plagues
that can afflict humanity: it destroys
states, it destroys families. Any
scourge, in fact, is preferable to it. —
Martin Luther.

Every war involves a greater or
less relapse into barbarism. War, in-
deed, in its details, is the essence of
inhumanity. It dehumanizes. It may
save the state but it destroys the
citizen. — Bovee.

I hate that drums discordant sound
Parading round and round and round:
To me it talks of ravaged plains,
And burning towns, and ruined swains,
And mangled limbs, and dying groans,
And widows' tears, and orphans' moans;

And all that misery's hand bestows
To fill the catalogue of human woes.

— John Scott.

Carry his body hence!
Kings must have slaves;
Kings climb to eminence
Over men's graves;
So this man's eye is dim;
Throw the earth over him!

— Austin Codson.

I abominate war as unchristian. I
hold it the greatest of human crimes.
I deem it to involve all others—
violence, blood, rapine, fraud; every-
thing that can deform the character,
alter the nature, and debase the name
of man. — Brougham.

War in men's eye shall be
A monster of iniquity

In the good time coming.
Nations shall not quarrel then,
To prove which is the stronger;
Nor slaughter men for glory's sake. —
Charles Mackay.

Of all the evils to public liberty war
is perhaps the most to be dreaded, be-
cause it comprises and develops the
genius of every other. War is the
parent of armies; from these proceed
debt and taxes. — Madison.

The mad wickedness of war. — Virgil.

DO YOU WANT A FARM?

Here is one of 310 acres of black
sandy soil, four-room house, out-

Rheumatism Follows Exposure.

In the rain all day is generally followed by painful twinges of rheumatism or neuralgia. Sloan's Liniment will give you quick relief and prevent the twinges from becoming torture. It quickly penetrates without rubbing and soothes the sore and aching joints. For sore, stiff, exhausted muscles that ache and throb from overwork, Sloan's Liniment affords quick relief. Bruises, sprains, strains and other minor injuries to children are quickly soothed by Sloan's Liniment. Get a bottle to-day at your Druggist, 25c.

Lacoste Ledger Lacronics.

On account of the constant clamor for bridges across the now everlasting waters of the Medina river and seeing the inability of the county to alone finance the building of said bridge, our people now have a petition in circulation subscribing certain sums of money to be paid in the county treasury after the bridges are completed. Several hundred dollars are already subscribed, and work will start in a very short time on two bridges near Lacoste, one at the place known as the Weber crossing, and the other at a place known as the Biediger crossing. Both bridges are to be built of concrete, and will be permanent. Therefore there is hope for bridges now, provided the subscriptions will amount to a sufficient sum so the county funds will not be severely attached. It is a work of necessity and we confidently expect that all our friends and neighbors will help the good thing along with a liberal subscription.

Last Friday afternoon while feeding a job press Miss Pauline Biediger accidentally got her right hand pinched by the press cutting off one finger point near the first joint and badly mashing the other one. Medical aid was immediately summoned and Dr. L. A. Koontz, dressed the wounded fingers, and at present the lady is getting along fairly well.

John Rihn was hauling some irrigation corn to market here the first part of the week.

Several parties from the Sauz hauled corn to market here the early part of this week.

Miss Lucie Crane and Helen Jungman and Prof. J. H. Boles returned from Hondo Friday.

Miss Helen Jungman left Saturday for Riomedina where she will teach school this term.

Misses Mary and Eva Hawkes were at Cline, Texas, and were accompanied home by Ella Ahr.

Miss Elsie Lutz after spending several weeks with relatives here and at Devine, returned to her home at D'Hanis Saturday.

Mr. and Mrs. A. O. Hutzler were called to the bedside of Mrs. A. O. Hutzler, mother of Mrs. Joseph Weber of Lower Hondo Saturday night.

Louis Bendele and Emil Haby of the French Settlement, took a run to Hon do Monday.

Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequaled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by All Dealers.

Dam on Cow Creek.

From R. V. Sauer we learn that he has had constructed on his land situated on Little Cow Creek, in the southern part of the County, a dam so as to provide and sustain water in case of need for his stock. The dam was begun over three weeks ago and was recently finished, being built under the direction of Sedan Breiten. The dam is estimated to hold about 1,000,000 cubic feet of water, and will be used chiefly for watering stock, the original purpose of its construction. A strange feature of the dam was that it was completed on an evening one day and it raining that night, the next morning found the lake behind the dam full to the top. Mr. Sauer considered it an unusually good piece of luck favoring him.

The construction of this dam now places that section, and especially the one which Mr. Sauer's controls, in a good position and will make the place valuable on account of the handiness of the water. --Brackett News-Mail.

Changing Seasons Brings Colds.

"Stuffed-up head," clogged-up nose, tight chest, sore throat are sure signs of cold, and Dr. King's New Discovery is sure relief. A dose of this combination of antiseptic balsams soothes the irritated membrane, clears the head, loosens the phlegm, you breathe easier and realize your cold is broken up. Treat a cold persistently; half-way measures leave a lingering cough. Take Dr. King's New Discovery until your cold is gone. For 47 years the favorite remedy for young and old. At your Druggist, 50c.

Back in Baltimore.

Once upon a time, not very, very long ago, when the wooing breath of spring had swept across the earth, its glad message found an echo in the hearts of two wanderers recently returned to their beloved South.

These recreant ones, drawn by the season, had donned their magic seven-league boots, had laid some thousand miles or more behind them, and had come to the city of their desire just as the song of the mocking-bird among the magnolias was blending with a robin's trill to welcome the spring from the boughs of the big elm that shades the Cardinal's residence.

We are again in the old town of our love, where the grass is smooth and green beneath the trees and where the gay beds of crocus and of hyacinth make many an oasis of color in the gay desert of a busy city's mart. --Olie Clapp Boggs, in September Southern Woman's.

He Was Worried And Hopeless.

"For ten years I was bothered with kidney trouble," writes T. F. Hatchinson, Little Rock, Ark. "I was worried and had almost given up all hopes. I used five boxes of Foley Kidney Pills and am now a well man." Foley Kidney Pills drive out aches, pains, rheumatism and all kidney trouble symptoms. Sold everywhere, and in Hondo by W. H. Windrow.

Sabinal Sentinel Siftings.

A little over 1,000 bales of cotton have been ginned at Sabinal and about 800 bales at Knippa to date this season. It is expected that there will be between 1,500 and 2,000 bales ginned at Sabinal. Miss Aggie Reily returned Saturday from Hondo where she had been visiting.

Messrs. Jacob Reinhart, A. J. Durham and Jack McCauley and their families left Wednesday morning for the Medina Dam on an outing.

Mrs. C. B. Johnson went to San Antonio Tuesday to be with George who we understand is doing real well. He will probably have to remain in the hospital for some time.

Mr. and Mrs. Irving C. Honegger are planning to leave next week for Tennessee where Mr. Honegger has a position. We wish them much good fortune in their new location.

Cured Her Two Little Girls.

Mrs. Ada Sanders, Cottontown, Tenn., writes: "We use Foley's Honey and Tar as our best and only cough remedy. It never fails to cure my two little girls when they have colds." Relieves hoarseness, tickling throat, bronchitis, hay fever, asthma, croup. Sold everywhere, and in Hondo by W. H. Windrow.

Things Worth Knowing.

You May Have Pumpkin Pie all the year around. Buy a few large pumpkins when the price is lowest, and peel and cut into pieces and dry in the oven. Then put away in oiled paper. When needed for a pie, soak over night, then simmer gently until done, and proceed to use as desired.

After Picking Poultry rub briskly with corn meal to remove pin feathers. This also aids much in the cleaning process.

When You Find Fruit Stains on Table Linen moisten with a little camphor. If this is done before the stain has been wet with water, it will entirely disappear. --From "Household Hints," in The People's Home Journal for September.

Bad Temper From Bad Liver.

You can generally blame your grouch on a lazy liver. Liver ills are back of coated tongue, bad breath, biliousness and muddy, sallow complexion. Insufficient flow of bile leaves impurities in the liver which poison the entire system. Po-Do-Lax is Nature's remedy. It stimulates the activity of the liver, increases the flow of bile, and by its laxative quality carries off the waste matter and clears the complexion. At your Druggist, 25c.

The constant duty of every man to his fellows is to ascertain his own powers and special gifts, and to strengthen for the help of others. --John Ruskin.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is a medicine every family should be provided with. Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.

There are two freedoms--the false, where the man is free to do what he likes; the true, where a man is free to do what he ought. --Charles Kingsley.

Head-Off That All-Winter Cough.

At the first sign of sore throat, tight chest or stuffed-up head take a dose of Dr. Bell's Pine-Tar-Honey. The healing pine-tar, soothing honey and glycerine quickly relieve the congestion, loosen the phlegm and break up your cold. Dr. Bell's Pine-Tar-Honey has all the benefits of the healing aroma from a pine forest, it is pleasant to take and antiseptic. The formula on the bottle tells why it relieves colds and coughs. At your Druggist, 25c.

Blessed be the hand that prepares a pleasure for a child, for there is no saying when and where it may bloom forth. --Douglas Jerrold.

Are You Looking Old.

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

Maybe you also have noticed that after a woman has raised six or seven children she gives up all idea of becoming an artist's model.

How to Give Good Advice.

The best way to give good advice is to set a good example. When others see how quickly you get over your cold by taking Chamberlain's Cough Remedy they are likely to follow your example. This remedy has been in use for many years and enjoys an excellent reputation. Obtainable everywhere.

For Sale, a five-room house and two acres of land in the north part of town, known as the Causey place. This property will be sold cheap and on easy terms. Apply to Fletcher Davis, Agent, Hondo, or to R. I. Risinger, Owner, Tarpley, Texas.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take--Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

You can't make a mistake in taking

CARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee--Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. "Dodson's Liver Tone" is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

BETTER TO WAIT THAN TO REGRET

In placing your order for an automobile note that

The BUICK

has A 1 Leather Cushions, not imitation. Then think of the price you pay. I will be able to fill orders promptly a little later. Better let me have yours now. First come will be served first.

What The War Is Doing For The Farmer

The farmer is the backbone of the nation. He produces the food that we eat and the raw materials that we use. He is the one who makes it possible for us to live. He is the one who makes it possible for us to have a better life. He is the one who makes it possible for us to have a better future. He is the one who makes it possible for us to have a better world.

Let us take wheat for example. We all know that the war has put the price of wheat up. Very high. It means that the whole country, city, town and rural population as well as paying more for their food—therefore the wheat farmer should theoretically be getting rich on a product which is essential to no man to raise that commodity and for which he gets more money.

But wait a minute—there are other things to consider in this matter of growing rich off of the war. Cotton and wool and meats and farm machinery and sugar have gone up too. This means that while the wheat farmer is getting more for his product, he is also paying more for other necessities for his product. This cuts down somewhat on the profit the war is bringing to the farmer. Then it would seem that the best way to keep ahead of the game is for the farmer to pay the farmer who raises his necessities the increased prices that the war has brought about and when buying necessities of life to pick and choose from
